作品概要 WORK EXPLANATION

ニポン国の漫画(作者:久文マツオ)を原作としたテレビまんが。制作はニポン国のスタジオラヴューン。全52話放送。ニポン国での本放送は3年前。制作当時、ニポン国の家庭では白黒テレビが主流であったため、全話が白黒で制作された。その後、徐々にカラーテレビが一般に普及し始めたため26話分がカラーでリメイクされた。(※)

もともとシリアスな展開が売りの作品ではあるが、その内容があまりにも風刺的でハード、かつ救われない話だったために欠番になり、ニポン国での再放送時に放送されなかった回が2話ある。(第24話「慟哭の弾丸」、第49話「少女の白い夢」)シェパルドではニポン国のテレビまんががブームになっており、その中でもこの作品は未来的でシャープなデザインと、シリアスな展開が子どもだけでなく、大人にも熱狂的に受け入れられた。

現在シェパルドで放送されているのは白黒バージョンであるが、ニポン国で現在リメイクされている、カラーバージョンの輸入が待ち望まれている。

Nippon Manga (Author: Hisamufu Matsuo) based on the anime. The show was produced by the Nippon studio Oravuun. All 52 episodes were broadcasted in Nippon 3 years ago. At the time of production, black-and-white TV was commonplace in the home of Nippon, so the episodes were made in black and white. Afterwards, color television began to gradually spread, so 26 episodes were remade in color.

Originally the story's serious development was the selling point of it, but some episode's tone were deemed too non-serious, so 2 episodes were not shown during the rebroadcast in Nippon (Episode 24 "Bullets of Lamentation" and Episode 49 "A Girl's White Dream") . In Shepherd and Nippon the anime was enthusiastically accepted for its futunstic, sharp design and serious development by both children and adults.

Shepherd is currently broadcasting the black and white version, and the color verion is waiting to be imported from Nippon.

カラーテレビについて ▶▶▶▶

イヌヒト、ネコヒトは人間と同じように三原色を鮮やかに見分けることができないが、犬や猫の二色色覚に比べ、やや三色色覚よりに進化している。緑から赤のスペクトルが、全て黄色っぽく見え、青から紫が藍色にまとめられる。その代り、犬や猫より、夜目は効かなくなっている。結果、この世界のカラーテレビのカラー表現は、セピアカラーのような色表現となっている。

Caninu and Felineko can not distinguish the three primary colors like humans, but they've evolved slightly more than the dichroic color sense of cats and dogs. All the spectra from green to red are yellowish, and blue to purple are dark blue. As a result, the color expression of this world is a sepia like color.

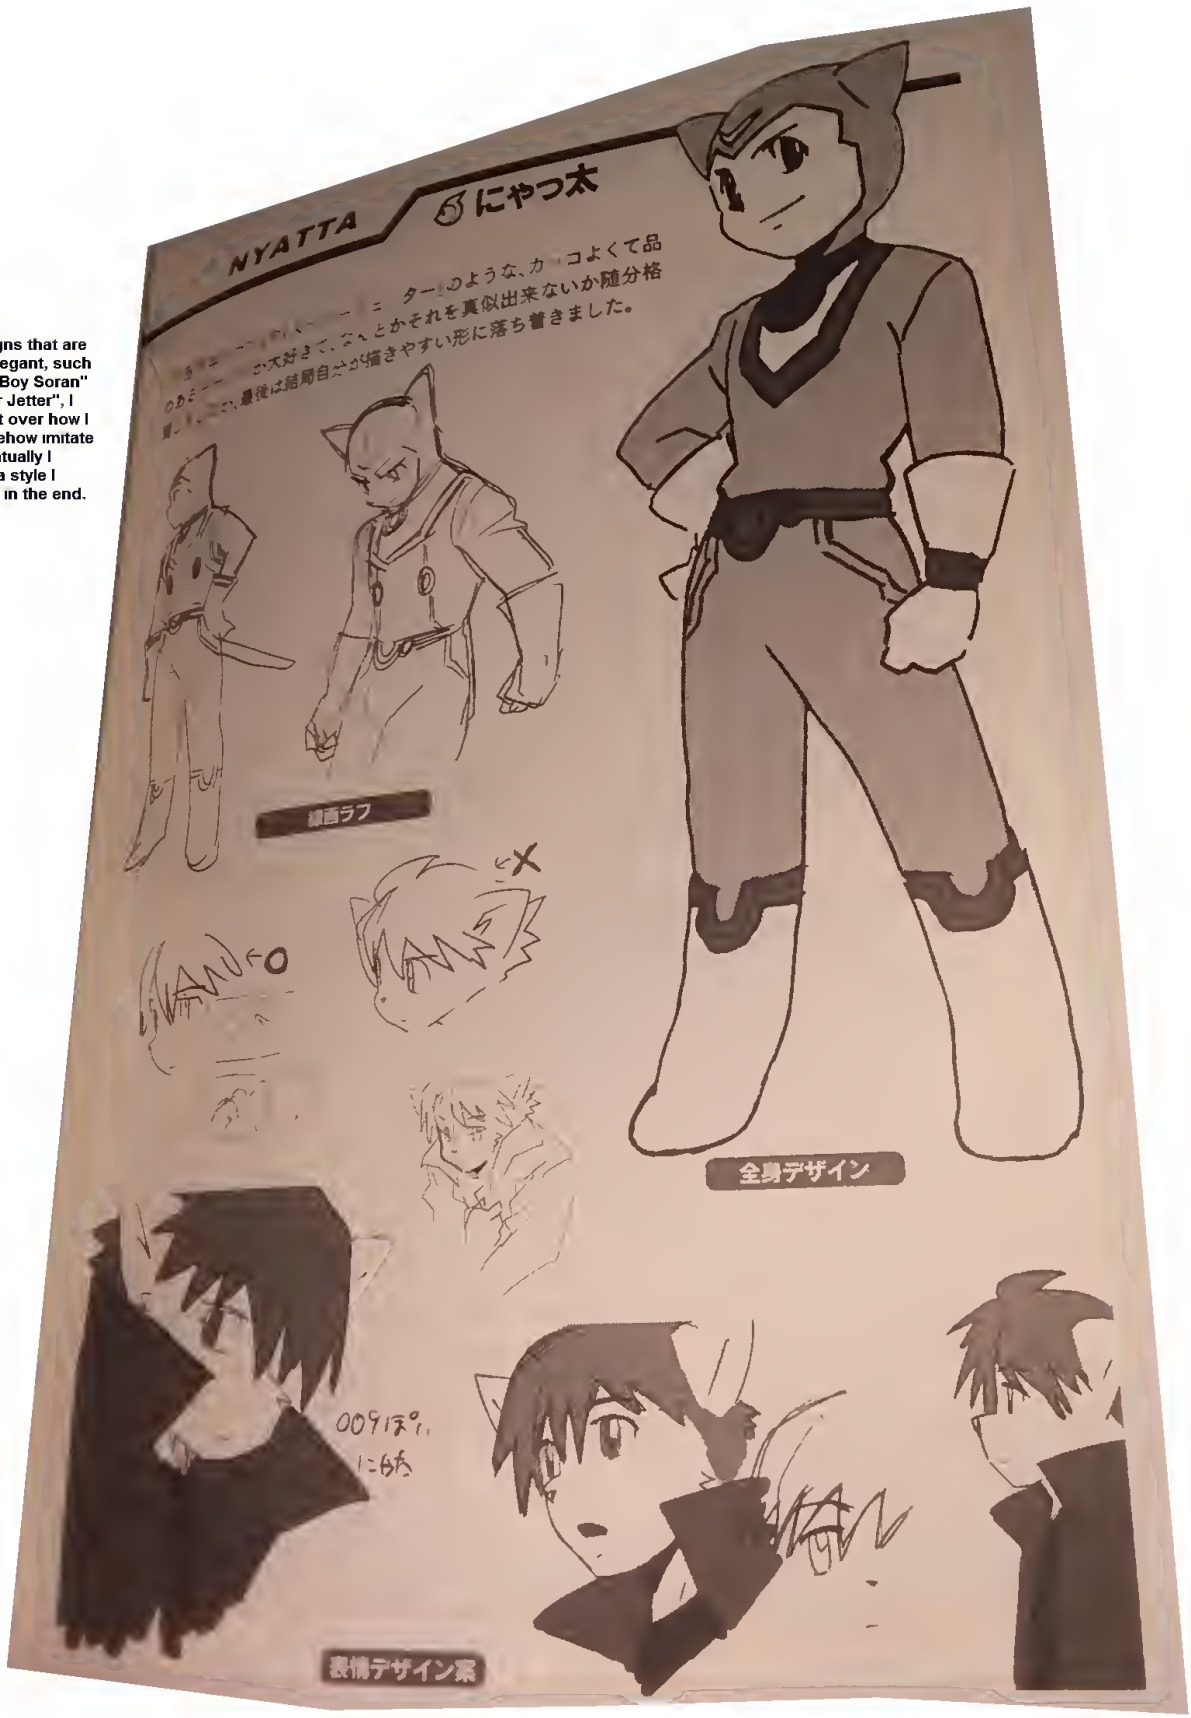
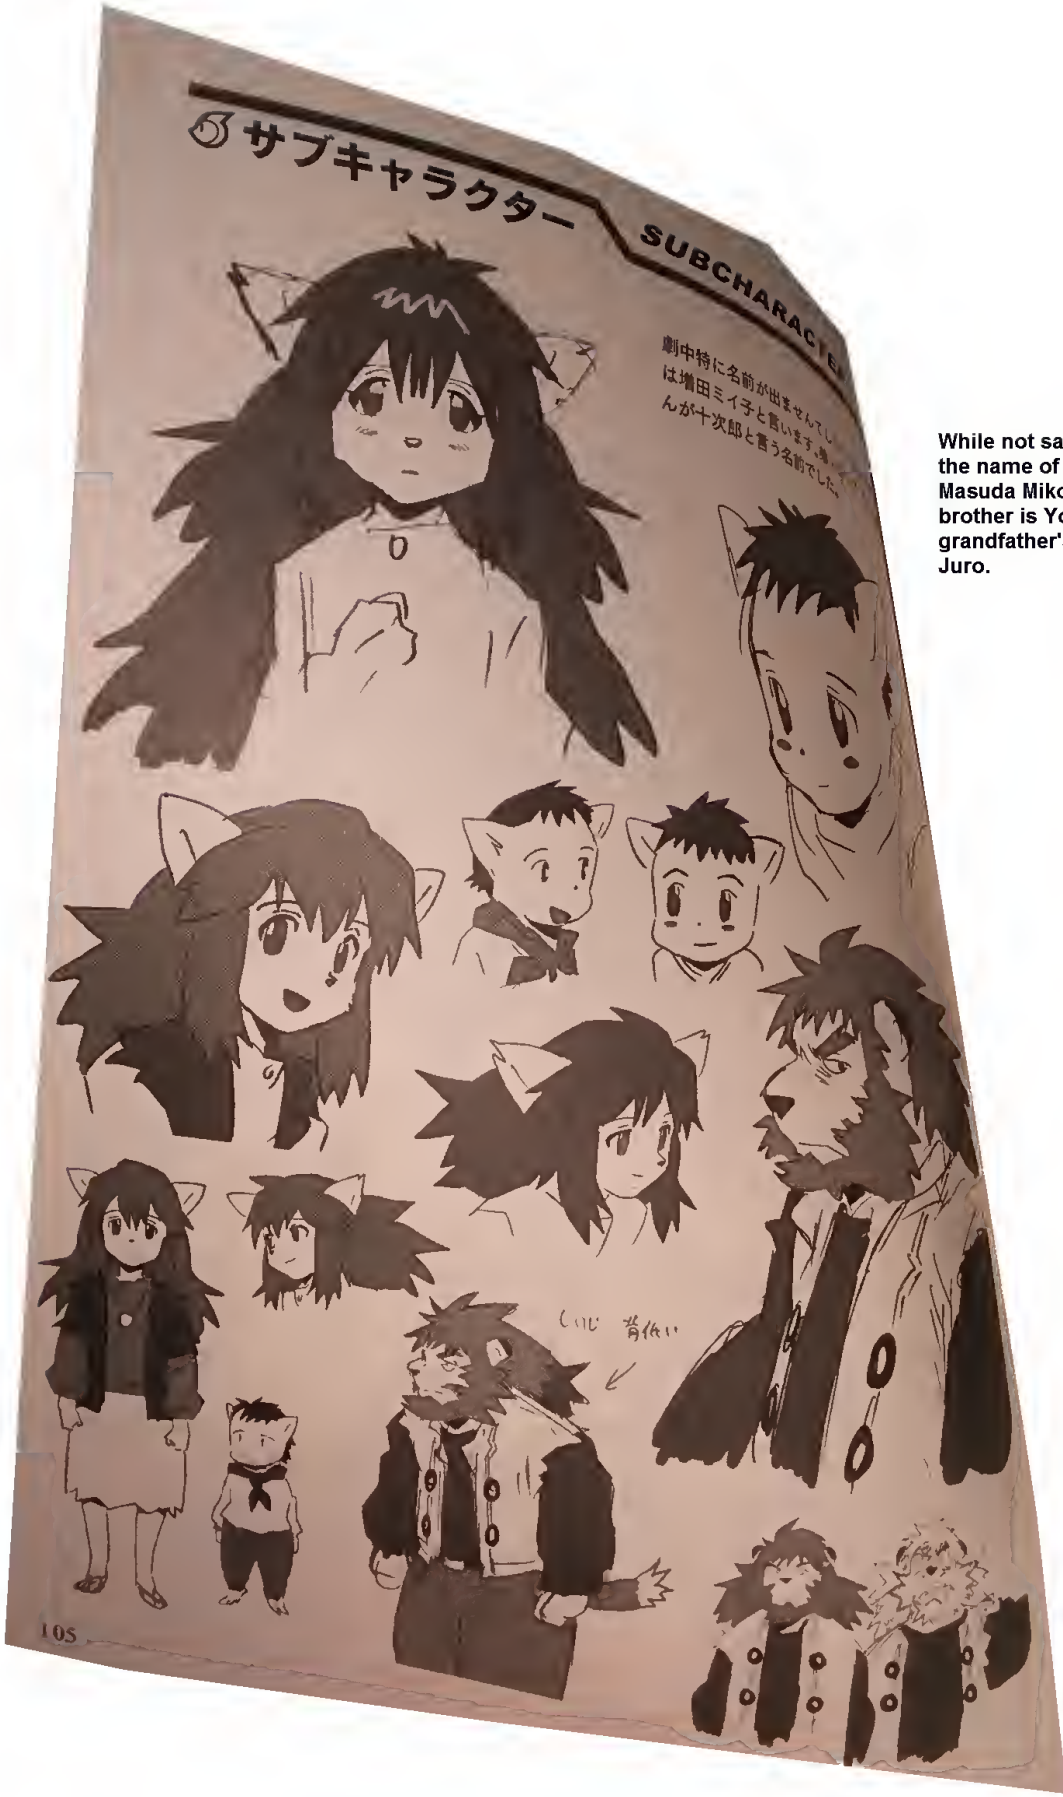
Fantasy Science Adventure Manga Super Nyatta is finally broadcasting at 7 o'clock!

I love designs that are cool and elegant, such as "Space Boy Soran" and "Super Jetter", I fought a lot over how I could somehow imitate it, but eventually I settled on a style I could draw in the end.



Although it was planned to design bad guys robotic style in the old days, simple robots are very difficult to balance during drawing, so now we have a lot of lines like now.

Originally he was just a middle-aged bad guy, but I also made him look like a handsome middle-aged and then I made both of them merge together. In the end, it was a great idea because he ended up as a popular character inside the company.



While not said in the story, the name of the girl is Masuda Miko, the younger brother is Yoshio, and the grandfather's name is Juro.

The Fire Jewel Group showed it's true character, the living machine Asougi. Overnight the earth was under Asougi's rule. War between Earthlings broke out due to Asougi's mind control. Kaoru and Hakase were killed by the hands of the brainwashed. The world is advancing towards the greatest chaos in history!!
